## Cast Products Adds New Equipment

**Norridge, IL — Cast Products, Inc.** has added a new tool to their Quality Department with the purchase of a new Global Advantage 7107 CMM. This machine is a high performance Direct Computer Controlled (DCC) Coordinate Measurement Machine. The Global Advantage 7107 combines excellent workplace accessibility, and an optimized machine structure with a user-friendly machine controlled system.

The 7107 provides the combined performance of accuracy and speed. It features a high speed performance analog scanning probe, thermal compensation, and advanced software with CAD and additional capabilities. The 7107 also includes the highest performance drives bringing its top acceleration up to 4.3m/s<sup>2</sup> for maximum measuring throughput.

The Global Advantage 7107 CMM will allow Cast Products to measure, collect SPC Data faster and have this information stored directly into our SPC Data Base. This will allow us to provide more detailed information to our customers faster than ever before!

Cast Products, Inc. (CPI) is an award winning supplier of custom Zinc Die Castings with the facility for design-to-delivery service. With deep engineering experience in New Product Development and an innovative eye toward value solutions, CPI maintains a complete machine shop for mold making and secondary operations. To determine if Cast Products has the right solution for you, go to [www.castproducts.com](http://www.castproducts.com). Contact Dan Laurence at (708) 395-4209 for more information.
